PROJECT DOCUMENTATION

Introduction

Documentation provides a complete record of the project and explains how the spreadsheet data is imported into ServiceNow.

Important Screenshots

1. **Spreadsheet containing source data**
2. **ServiceNow home/interface**
3. **Spreadsheet upload screen**
4. **Import Set Table**
5. **Transform Map configuration**
6. **Field Mapping**
7. **Transform result**
8. **Final target records**

Advantages

- Reduces manual data entry.
- Saves time.
- Supports multiple records.
- Improves data consistency.
- Provides structured data transformation.
- Makes data-import activities easier to manage.

Limitations

- Spreadsheet data must be properly formatted.
- Incorrect mappings can produce incorrect results.
- Invalid data may cause transformation errors.

Future Enhancements

- Automated scheduled imports.
- Advanced data validation.
- Improved duplicate detection.
- Data-cleaning rules.
- Reports and dashboards.
- Integration with other data sources.

Conclusion

The project provides a systematic method for importing spreadsheet data into ServiceNow using Import Sets and Transform Maps.
